Assignment

Introduction to Networks

Q - 1. Draw a simple diagram (hand-drawn or digital) showing how your phone connects to Instagram, including your device, WiFi router, ISP, and Instagram server. Label each part and the connections.

<u>Q - 2.</u> List 5 devices you use or see daily that are part of a network (for example: smartphone, smart TV, WiFi router, laptop, smartwatch). For each, write what type of network it connects to (LAN, WAN, PAN, etc.).

No.	Device	Network Type
1.	Smartphone	WAN
2.	Laptop	LAN
3.	Smart TV	LAN
4.	Smartwatch	PAN
5.	Wi-Fi Router	LAN

<u>Q - 3.</u> Explain the difference between the Internet and an intranet using an example from your college or a public WiFi you have used.

Internet	Intranet
1. It is a public network.	1. It is a private network.
2. Anyone can access it with an internet connection.	2. Only authorized users can access it.
3. Example: Google, Instagram.	3. Example: College attendance portal.
4. It connects computers worldwide.	4. It connects computers within an organization.

<u>Q - 4.</u> Pick any one app you use (like WhatsApp, Zomato, or Flipkart) and describe, in 4-5 lines, how data travels from your device to their server and back when you perform a search inside the app. Hint: Mention the devices and networks involved, and what happens when you hit 'search'.

- **How Data Travels in WhatsApp Search:**

1. I open WhatsApp on my smartphone and enter a keyword.
2. I press Search, and the app processes my request.
3. The search may use locally stored data or send a request through Wi-Fi/mobile data and the ISP.
4. If sent online, WhatsApp's server processes the request and returns data.
5. The matching results appear on my phone.
